Where to find IE on University of Bath desktop computers

Internet Explorer can be found by opening the Start Menu

Scroll down to the Windows Accessories folder and open the contents.

Click on Internet Explorer to open the browser.

ThomsonOne will only work with Internet Explorer and needs to be switched to compatibility mode.

How to switch Internet Explorer into compatibility mode for Thomson One and turn off pop up blocker

1. Select the ‘cog’ from the top right of the IE browser:

2. Then select ‘compatibility view settings’:
3. Then opt to add the ThomsonOne website into your compatibility view favourites:

4. To turn off the pop-up blocker, again from the cog menu choose ‘internet options’.
5. Then choose ‘privacy’ and **untick** ‘turn on pop-up blocker’.
